Required Tools

Note: Installation instructions are for one partition. Repeat same steps for each individual partition.

1 Drill Pilot Holes (×8)

- a** Base plate templates (3-15-2160) will be provided. The base plate template has hole locations for drilling. Spacers (3-15-2347) will also be provided. Place the longer spacer directly against the wall to get the correct spacing from the wall to the vertical posts. Please note that there are no pilot holes to drill for the wall mount extrusion and this piece is placed after all other vertical posts are installed.

- b** Following the Installation Template, drill pilot holes. Use appropriate pilot hole diameter and depth for the type of substrate you are fastening to.

**3form stocks the drill bits required for the concrete and wood pilot holes. If you wish to purchase a drill bit, please contact your 3form sales representative.*

Substrate	Ø	Drill Bit	Depth	Anchors
Concrete	8mm	3-15-2350	min 4.3"	3-15-2309
Wood	3/16"	3-15-2335	min 3.5"	3-15-2310
